

NUMUN

Northwestern University Model United Nations

Honorable delegates,

First of all, I would like to welcome you to Northwestern Universities Model United Nations. I am Tala Siraj and I will be chairing the G8+5 committee in the course of your participation in this conference. I have 5 years of MUN experience and have participated in conferences in Jordan, Egypt and The Hague. I hope you enjoy this conference and get out as much of it as you can.

We are all here together to debate worldwide related issues and possibly come up with solutions to the raging debates going on all around the world. You should all think of yourselves as the leaders of tomorrow and therefore make it in your power to resolve some of the conflicts facing our world today.

The G8+5 is a small committee focusing on vital issues. The topics we will be discussing this year are on the top of the agendas of most countries. Since the committee is small we are expecting you to come very well prepared and with good position papers that reflect your opinions (as country leaders) on the topics.

I hope that I have made a good choice selecting the topics we will be debating and I also hope that you all come enthusiastic to come up with solutions. With all your efforts, we will hopefully have a great conference. I can't wait to meet all of you!

Tala Siraj

Chair of the G8+5
